REFERENCE

We have been cooperating with Animatria for several years, so far mainly on the children's level.

Until 2020, we jointly organized events on Children's Day, and last year we developed cooperation in the field of gift boxes and remote workshops.

So far, Animatria has prepared about 100 packages for us, which we used as a form of prizes in internal competitions of the company. In December 2020, Animatria also took up the challenge of organizing workshops for adults in English for us. Both the prepared boxes and the workshops for adults turned out to be a great investment with a very positive reception by our employees. The company showed professionalism and flexibility, which is why we are already planning joint projects. We are happy to recommend cooperation with the Animatria team and recommend their services to anyone for whom efficient and creative cooperation is important, as well as a positive reception of the project by the company's employees.
